American Flagship. Pat. 676. High centered, well formed, double flowers of velvet-textured crimson red. Vigorous grower and free bloomer, with black-spot resistant foliage. Holds color in sun, \$1.50 ea., 3 for \$4.00.

Ami Quinard. Blackish maroon, opening into semi-double flowers of rich velvety red, with blackish luster—brilliant and unfading; has old-time fragrance. Strong, upright grower and fine producer. \$1.25 each; 3 for \$3.35.

Betty Uprichard. Carmine and salmon. In color, this rose is in a class by itself with its beautiful, harmonizing shades, rising from an orange base. Long pointed buds open to large semi-double blooms with a spicy fragrance. \$1.25 each; 3 for \$3.35.

California. Pat. 449. Ruddy orange toned with saffron-yellow. Very large flowers, 5 to 6 inches across. Healthy foliage. \$1.35 each; 3 for \$3.60.

Capistrano. Plant Patent Applied For. The color is a rich, clear rose-pink that really lasts; tight buds are a little deeper pink approaching a bright cherry red. The glowing rose-pink color remains rich and unfaded. It has good, lasting fragrance, also, flower stems are strong on the tall, shapely, well-branched plants. \$2.00 each; 3 for \$5.00.

BETTY UPRICHARD

Charlotte Armstrong. Pat. 455. Blood-red pointed buds; magnificent long-stemmed, open flower, cerise in summer heat; richly fragrant. Very prolific and a continuous bloomer. Disease-resistant foliage. An All-American Rose. \$1.75 each; 3 for \$4.50.

Christopher Stone. Scarlet-crimson, well sustained; vividly colored new Rose with old-Rose perfume. \$1.25 each; 3 for \$3.35.

Condesa de Sastago. Bicolor. Delightfully fragrant flowers of yellow and raspberry-red are produced profusely on vigorous, healthy plants. \$1.25 each; 3 for \$3.35.

Crimson Glory. Pat. 105. Large urn-shaped buds opening into well-formed flowers of intense deep vivid crimson, shaded oxblood-red; soft, velvet nap. \$1.50 each; 3 for \$4.00.

Diamond Jubilee. H. T. (Boerner.) Patent 824. All-American Award winner for 1948. Lovely blooms of soft peach-gold. The petals have a wonderfully heavy texture. Vigorous and

- disease resistant, the plant approached perfection throughout its trials. The stems are long and straight, well covered with rich dark green foliage. \$2.00 each; 3 for \$5.00.
- Eclipse.** Pat. 172. International sensation; awarded prizes in Rome, Paris, etc. Long streamlined buds are rich gold without shading. Strong upright plant with healthy dark green foliage. Gold Medal winner. \$1.50 each; 3 for \$4.00.
- Edith Nellie Perkins.** Long-pointed, rich orange-pink buds, opening salmon-pink with golden underglow; very fragrant, \$1.25 each; 3 for \$3.35.
- Ernie Pyle.** Pat. 673. Warm rose-pink flowers of good size. Vigorous, extra-hardy plant. \$1.50 each; 3 for \$4.00.
- Etoile de Hollande.** Brilliant scarlet, fragrant flowers of large size, a constant joy as it is a continuous bloomer. One of the best reds. \$1.25 each; 3 for \$3.35.
- Forty-Niner.** Patent No. 792. Brilliantly hued bi-color that justly secured an A.A.R.S. Award for 1949. Its contrasting colors are startling in their brilliance, and yet they blend together beautifully. Inside of petals is a vivid Orient-Red, while the outside is a Chrome-Yellow, changing to Straw-Yellow. Colors are lasting and bright. The long bud opens to a well shaped bloom of 25 to 40 petals, mildly fragrant. \$2.00 each; 3 for \$5.00.
- Golden Anniversary.** Pat. 806. A sport of Good News, with flowers as handsomely formed but a fine old-gold color, flushed apricot at times. Best of all, it is a golden Rose on a truly vigorous, well-branched plant with dense foliage right down to the ground! For the plant retains its sturdiness, shapeliness and leaf mass of its parent, all the more remarkable in a yellow Rose. The plants under test have bloomed heavily and continuously; no other H.T. in the entire test plot has been able to keep up with them. \$1.50 each; 3 for \$4.00.
- Golden Dawn.** Sunflower-yellow with bud tinged carmine; deliciously fragrant. Robust grower with superabundance of foliage; a prolific bloomer. Bush and habit perfect. \$1.25 each; 3 for \$3.35.
- Golden Rapture.** Long lasting, beautifully formed buds, fully double blooms of rich yellow on long, strong stems. A vigorous grower. \$1.25 each; 3 for \$3.35.
- Grande Duchesse Charlotte.** Plant Pat. 774. The lovely burnt-carmine color of this new Rose is unmatched by any other. The enchanting, streamlined buds come freely on long wiry stems, making them excellent for cutting. Carnation fragrance. \$1.50 each; 3 for \$4.00.
- Horace McFarland.** Plant Pat. 730. Buff-salmon color. A sturdy and upright grower with large leathery foliage. Large, high-centered buds develop into immense, full flowers on erect stems. Spicily scented. A splendid new Rose of distinctive color. Named in honor of the eminent rosarian from Harrisburg, Penna. \$1.50 each; 3 for \$4.00.
- Kaiserine Auguste Viktoria.** Creamy white, large blooms on long stems; fragrant; constant, majestic bloomer. \$1.25 each; 3 for \$3.35.

- Margaret McGredy.** Brilliant red petals on hinges of deep gold; buds upright; constant bloomer. Resistant to black-spot and mildew. Gold Medal winner, \$1.25 each; 3 for \$3.35.
- Mary Margaret McBride.** Plant Pat. 537. Shining rose-pink. The long, firm buds open slowly to large, 45-petaled blooms, the outer petals gracefully recurved around the high, closed center. \$1.50 each; 3 for \$4.00.
- McGredy's Ivory.** Pure white, perfectly formed, long-pointed buds and high-centered double flowers with sweet fragrance. \$1.25 each; 3 for \$3.35.
- McGredy's Scarlet.** Rich, velvety, scarlet with orange base. Fragrant, full, double flowers of good size. Free blooming. \$1.25 each; 3 for \$3.35.
- McGredy's Sunset.** Plant Pat. 317. Yellow. Full-petaled flowers of clear yellow pencilled with carmine. Free in bloom. \$1.50 each; 3 for \$4.00.
- McGredy's Yellow.** Bright buttercup-yellow flowers, perfectly formed; undamaged by rains. Glossy, dark bronze foliage. \$1.25 each; 3 for \$3.35.
- Mirandy.** Pat. 632. A glorious new Rose from California. Received the highest in the tests for the year 1945 in the All-American Rose Selection. Big, ovid buds, deep, rich, dark red with black shadings; beautifully formed blossoms with a delightful fragrance. \$1.75 each; 3 for \$4.50.
- Mission Bells.** Pat. 923. Salmon-pink. All-America Award winner for 1950. Its color is a glowing, clear salmon or shrimp-pink that is always treasured in Roses. The buds are well-pointed, opening to high-centered flowers often 5 inches across, with about 40 petals. Mission Bells produces large quantities of blooms continuously all season. Tea fragrance. Bushy, densely foliaged plants, resistant to blackspot. It is good. \$2.00 each; 3 for \$5.00.

MCGREDY'S SCARLET

SOEUR THERESE

Mme. Cochet-Cochet. Pat. 129. Coppery pink. From the time of its introduction this lovely Rose has been a continuous success. The long-pointed buds of coppery pink open to large, semi-double, artistic flowers that simply glow with reflected gold on the inside petals, the whole effect being a coppery pink. Rich honey-like fragrance. \$1.50 each; 3 for \$4.00.

Mme. Jules Bouche. One of the best white everblooming Roses ever introduced. Large, double fragrant flowers are of fine form. \$1.25 each; 3 for \$3.35.

Mrs. Sam McGredy. Glistening scarlet-copper-orange; deep red shadings. Fine form, double; fragrant. Graceful long-pointed buds. Disease resistant. \$1.25 each; 3 for \$3.35.

New Yorker. Plant Pat. 823. Fiery red blooms on long, stiff stems, a brilliant red that does not fade or blue. Well-formed bud and bloom, very fragrant, on a sturdy plant, resistant to black-spot. \$2.00 each; 3 for \$5.00.

Nocturne. H.T. (Swim.) Plant Pat. 713. Long-pointed buds of perfect form open to blooms of bright cardinal-red with dark shadings. Somewhat lighter, a coppery red, during the hottest part of summer. Blooms of show, shape and size; intensely fragrant. Good foliage and vigorous plants like the great Rose, Charlotte Armstrong, which is one of its parents. \$1.65 each; 3 for \$4.50.

Peace. Pat. 591. Sensational new rose; buds open yellow edged cerise; glorious 5-inch blooms of firm, alabaster-white, each petal edged with pink that deepens as the flower

opens. Very double, strong and vigorous grower with superb foliage. This new Rose appropriately heralds the dawn of Peace. \$2.00 each; 3 for \$5.00.

Picture. Beautiful, clear pink with just a trace of salmon to give it a warm glow. Delightfully fragrant, very vigorous and continuous bloomer, \$1.25 each; 3 for \$3.35.

Pink Dawn. Glistening deep rose, opening to lovely pink, tinted orange at base of petals; well-formed; double; fragrant. Vigorous and prolific. \$1.25 each; 3 for \$3.35.

Poinsettia. Upright, Radiance-like plants with beautiful blooms of brilliant scarlet-red. They are fragrant and are close to perfection in form. One of the best of the new Roses. Fragrant. 28 petals. \$1.25 each; 3 for \$3.35.

Radiance. Beautiful light silvery pink on salmon-pink. A dependable pink; large and fragrant. \$1.25 each; 3 for \$3.35.

Red Radiance. Beautiful deep red form of Radiance. \$1.25 each; 3 for \$3.35.

Rubaiyat. Unchallenged winner of the 1947 All-American Rose Trials. The naming of this newest sensation of the Rose world was inspired by the celebrated quatrains of Omar Khayyam's "Rubaiyat." It is a brilliant red; Old-Rose fragrance, and hardy, disease-resistant qualities. \$1.50 each; 3 for \$4.00.

Soeur Therese. Golden yellow, exquisite, long-pointed buds touched with orange-carmine, vigorous fine bloomer. \$1.25 each; 3 for \$3.35.

Sterling. Pat. 211. Beautiful pink. The big, long-pointed bud of brilliant deep pink, with yellow at base, opens into a large bloom, lasting when cut; fragrant. \$1.50 each; 3 for \$4.00.

Sutter's Gold. Patent Applied For. New All-American winner for 1950. Brilliant golden buds, shaded coppery orange and vermilion; intensely fragrant. Strong stems with few thorns; vigorous, bushy plants, disease resistant and free in bloom, 25 to 30 petals, bright, glossy foliage. \$2.25 each; 3 for \$5.50.

Tallyho. Pat. 828. All-American winner 1949. Handsome blooms, old-rose coloring; truly two-toned. And what a plant! Great, long, reddish canes are topped with glorious bursts of bloom. Rich, spicy fragrance. \$2.00 each; 3 for \$5.00.

The Doctor. Long pointed buds of exquisite silvery pink open to enormous blooms of the same uniform color, with a fragrance so intense that it can be detected many yards away. \$1.25 each; 3 for \$3.35.

EVERBLOOMING FLORIBUNDAS

Fashion. Plant Patent 789. New Floribunda All-America Award winner for 1950. Bright coral-peach, a most amazing color, so soft and lovely, a new color in Roses. The open flowers are 3 inches across or larger; semi-double; pleasing old-rose fragrance. Vigorous, neat grower, glossy foliage; 2-2½ ft., with few thorns. \$2.00 each; 3 for \$5.00.

Goldilocks. Plant Pat. 672. Rich, golden yellow. Buds open to very double blooms up to

ROSES

B. F. Barr & Son

2 inches across; spreading, bushy plants 2½ ft. high. The best yellow Floribunda. \$1.50 each; 3 for \$4.00.

HARDY CHRYSANTHEMUMS

LOVELY HARDY CHRYSANTHEMUMS KNOWN AS HARDY GARDEN MUMS

No perennial has increased in popularity as rapidly as has the "Hardy Garden Mums" producing as they do, hundreds of brilliant blooms at so little a cost. They crown the Fall flower season, and your summer gardening efforts go out in a blaze of glory.

CULTURE

They thrive in any good garden soil and need little care other than guarding against insects, and applying a straw mulch in the late Fall for winter protection. To grow nice stocky plants, pinch the terminal shoots once or twice during the season to keep the plants sturdy and bushy. First pinching when the plant is 6 inches tall to induce lateral branches. When the lateral branches are 8 inches high, their tips may be pinched out again to produce more branches. Discontinue pinching by July 15th. The very early blooming varieties should not be pinched after July 10th. A well pinched or topped plant will grow strong and sturdy needing no staking and bloom abundantly. Avoid planting them in a shady location.

Strong plants from pots ready for delivery May 1st through June.

On order for \$4.00 or more, postage prepaid. Orders for less than \$4.00, please add 35c for packing and postage.

MAJOR BOWES

Large Early Flowering Chrysanthemums

Garden and Greenhouse Large-Flowering Type.

Each year we have more requests for the large greenhouse type chrysanthemums. These are not as hardy as the garden type mums but can be carried over winter very successfully in a cold frame under glass. To produce those big 5-6 inch blooms they require disbudding, leaving one to three flowers to each plant.

We offer only the choicest early varieties:

	Blooming Date to Frost
Major Bowes. Deep lavender-pink.	Oct. 20
Mrs. H. E. Kidder. Deep lemon-yellow, incurved.	Oct. 15
Silver Sheen. Fine cream-white, incurved.	Oct. 20

Any of the above varieties, potted plants 50c each, 3 for \$1.25.

PERENNIALS**Hardy Dependable Favorite Varieties**

From early Spring to late Autumn there are always flowers to enjoy where Perennials are planted, and the blooms are equally enjoyable growing in beds or borders on the lawn or cut for table and home decoration. Once planted they continue to bloom and increase in beauty each succeeding year.

Perennials require little attention (weeding and watering during the growing season and mulching with fertilizer in the Fall) and, as each variety has a fixed period to flower, a succession of bloom can be enjoyed throughout the season. Plant 3 or more of a kind in a group for the best effect.

We pre-pay parcel post on orders of \$5.00 or more, under \$5.00, please add 35c for packing and postage.

Barr's

Quality Lawn Seed

Barr's Lawn Grass Seed Mixtures have been designed primarily to produce a lawn that is at once permanent, quick starting, and a good green color. They are guaranteed to be entirely free of Fall or Crab Grass seed. Recleaned by modern machinery, Barr's Lawn Grass Seed Mixtures are free from chaff, which makes these mixtures go twice as far. They test especially high in germination, providing a thick stand from the beginning which is essential in holding weeds in check.

One pound of seed will sow to 250 square feet of lawn. Keep ground constantly moist until grass is well started then water heavily at intervals during dry periods.

BARR'S SUNNYSIDE Lawn Seed Mixture

This is a combination of the most desirable permanent grasses—dwarf, close-growing, fine-leaved—producing a good green lawn even in dry weather. As the chief ingredient of a good lawn is superfine Kentucky Blue Grass there is a larger proportion of this ideal grass in this mixture. No Timothy nor Rye nor coarse-bladed annual grasses are used to cheapen this mixture. It will germinate quickly and provide a neat, permanent lawn. Besides the Kentucky Blue Grass other varieties included are fine-leaved perennial grasses and some Chewing's Fescue, a higher-priced grass that holds weeds in check much better than other varieties.

1 lb., \$1.45; 5 lbs., \$7.05; 10 lbs., \$13.70; 25 lbs., \$32.50; 100 lbs., \$128.00 Prepaid.

BARR'S FANCY WHITE Dutch Clover

Fancy recleaned seed. Excellent for lawns. Mix 2 to 4 ounces with each pound of above named mixtures if you want Clover on the lawn.

¼ lb. 70c; ½ lb. \$1.20; 1 lb. \$2.00.

BARR'S GREEN MANTLE Lawn Seed Mixture

This is a splendid mixture of good grasses for average conditions of soil and sunshine. It has a large proportion of Kentucky Blue Grass; also other desirable grasses for a good, quick effect which helps to hold weeds in check. Will give the lawn an enduring velvety, deep green mantle. Very free from weed seeds.

1 lb. \$1.20; 5 lbs. \$5.80; 10 lbs. \$11.30; 25 lbs. \$27.00; 100 lbs. \$106.00 Prepaid.

BARR'S SHADY SIDE Lawn Seed Mixture

Composed of shade-loving permanent varieties of fine-leaved grasses—no Timothy nor Ryegrass. Included are fine-leaved perennial grasses, which have proved best adapted for situations of a difficult nature due to shade.

1 lb. \$1.40; 5 lbs. \$6.80; 10 lbs. \$13.20; 25 lbs. \$31.50; 100 lbs. \$123.00 Prepaid.

Feed lawns under trees heavily two times a year—spring and early fall. Failure under trees is due more to competition of tree roots than shade. Special Lawn Fertilizer. See page 33.

Practical Landscape Service For Prospective Clients

YOU GET BEAUTY AND VIGOR IN "WILL GROW" EVERGREENS

Barr's "Will Grow" Evergreens have a character all their own, due to our system of shaping, root-pruning and frequent transplanting, which results not only in a close, beautiful, compact growth so desirable in Evergreens, but aids in quick recovery after transplanting.

Being hand-dug B-B (Balled & Burlapped) when your order is received all roots are carefully secured. Taken fresh from the ground is assurance that your Evergreens will have their full vitality and that you can count on them giving you the most satisfactory results.

YEWS (Taxus)

IMMUNE TO MOST INSECTS AND DISEASE

Adaptability to part shade, semi-dwarf habit, handsome, dark green foliage winter and summer, give the Yews their high value as Evergreens for foundation and other ornamental planting. Best evergreen family for difficult city conditions and foundation planting. Any planting can be greatly enriched by a liberal use of Yews. Many of the Yews produce a profusion of red berries during the Fall.

HEMLOCK (Tsuga)

HEMLOCKS — A Leading Specialty at Barr's

The Hemlock with its graceful branches, and beautiful, neat, needle foliage can well be made the basis of many fine plantings. Its informality of outline is particularly pleasing. On the open lawn it makes a handsome specimen, but wherever planted it is never out of place. Will remain small many years if sheared regularly.

TSUGA canadensis, 60-80 ft.

Canada Hemlock

The soft, feathery, dark green, fernlike foliage of the Canada Hemlock will give a softening touch to any planting, and combined with its gracefully spreading branches makes of it a magnificent tree. It is the State Tree of Pennsylvania. For specimen planting or in groups on the open lawn, or for hedges.

When Building A New Home

It is advisable to budget 10 percent for landscaping. Real estate men agree an investment of 10 percent of the cost of the house in Evergreens, Trees, and Shrubs increases the value at least 10 per cent and your enjoyment of your home to an immeasurable extent.

At the very beginning of operations put aside the amount you propose spending for landscaping. Without good landscaping a house gives the appearance of "something wanting," or not being finished.

We shall be pleased to furnish estimates and sketches on contemplated plantings without cost. Our 57 years experience is yours for the asking.

When and How to Plant Evergreens

1. Pack loose soil around Ball. Tramp firmly.
 2. Cut Burlap and push it down. Leave it to decay.
 3. Then water and fill in remaining soil.
- Dig hole 6 inches larger and deeper than ball of earth.

Evergreens transplant best during the Spring months, before and just as new growth is beginning, or for several months following August 15 when the new growth is completed and has become sufficiently hardened.

The excavation for planting should be considerably larger and deeper than the encased roots so as to allow liberal space around the ball for filling in with rich soil. Do not remove burlap, only loosen it at top and roll back as indicated in illustration. Carefully pack soil under earth ball. Mix 10% Peat Moss or rotted manure in the soil used for back fill, and ¼ lb. Vigoro, or BARR'S special fertilizer to a wheelbarrow load of soil. When hole is two-thirds refilled, FLOOD WITH WATER.

In restoring the remainder of the excavated soil allow a shallow basin to remain around the tree to collect the rain and enable it to soak into the ground. Mulch with well-rotted manure or Peat Moss to conserve the moisture in the ground and keep it from becoming hard. In the Fall mound the soil against the plants.

Nightly spray the foliage, water soil weekly and direct a STRONG force of water against the under side of the foliage, when the sun is not shining. This treatment preserves the vigor and beauty of the plant.

Shade and Flowering Trees

Figures following names indicate approximate height at maturity. "CAL." means thickness of trunk 10 inches from ground. All trees are dug bare rooted, unless noted "B&B", roots are packed in wet moss. Figures following names or description refers to ultimate height.

Does your home stand out in the bare sun, without background and unframed? Shade trees will make a wonderful transformation and give comforting shade as well.

How To Treat The Soil For Azaleas Holly and Rhododendrons

Rhododendrons and Azaleas require an acid soil. For best results, plant in a mixture of three parts leaf mould or Holland Peat to one part soil. In limestone localities ½ pound aluminum sulphate or Broadleaf fertilizer to each square yard of surface broadcast Spring and Fall, will prove beneficial in acidifying the soil.

I have just returned from a visit to my home in Fayetteville, RFD. I am very well pleased with the planting of the shrubbery. Everything looks lovely and I think you have done a very good piece of work. Thank you for your kindness, and suggestions, in making my home look so lovely—it needed the shrubbery to bring out the house and as the shrubbery grows I know it will be a beautiful spot.

Very truly yours,

Earl J. Bush

How to Plant and Prune Ornamental Shrubs

Before Pruning

After Pruning

Remove about one-third of top growth of shrub at planting time if Spring planted, or following Spring, if Fall planted, to facilitate establishment of plant. Thereafter, pruning should be done to remove old wood and keep plant to size desired. Cut off damaged or frayed roots just above the point affected. Be careful to have roots exposed to air or sun as little as possible at any time.

The important point in planting is to have the hole large enough to accommodate the roots without crowding, and to get the soil well worked in among the roots. Space the larger growing Shrubs 5-6 ft. apart, medium growers 4 ft., low growers, 3 ft.

Always water abundantly and apply a mulch. A basin-shaped depression should remain around each plant to hold the water, at least the first summer.

Evergreen Ground Cover Plants For Difficult Shady Places

For difficult places under trees and on banks where it is impossible for grass to thrive a class of plants designated as "Ground Cover Plants" can be used with good results. These plants are also valuable in Evergreen and Shrub plantings, filling up the intervening spaces. Other advantages are that they always look well, yet require practically no attention; and being evergreen, are as effective in Winter as in Summer. Among the best plants for this purpose are English Ivy, Pachysandra and Periwinkle.

PACHYSANDRA (Spurge)

Under trees Pachysandra is the real answer to the problem of covering the bare ground with greenery. Another advantage is the protection to the roots of trees afforded by the Pachysandra. The glossy foliage is very attractive. Use 2 or 3 to 1 sq. ft. of the area to be covered.

ENGLISH IVY

The English Ivy is particularly effective used on banks, to edge walks and under trees. An advantage in using Barr's English Ivy is that it goes further in coverage, each pot containing two plants—a twofold advantage. Plant 10 to 12 inches apart and you will soon have a carpet of green.

PERIWINKLE (Myrtle)

Not only is the Hardy Periwinkle a good ground cover under trees and on hillsides, but its pretty blue flowers also make an appeal. The glossy, evergreen foliage remains beautiful the year round. When planting do not place the crown of the plant below the surface of the soil. Use 2 plants to 1 sq. ft. of area.

BARR'S FRUIT TREES

Are Sturdy, Heavy Yielding

The trees listed here are the best in their respective varieties. They are the largest sizes that can be planted to best advantage, are straight trunked, true to name. By reason of their being northern grown they have unusual vigor, will transplant successfully, make good growth, and give an early and abundant yield. Plant cherry tree tap-root straight down.

Heavy, No. 1 grade selected trees; note large caliper (trunk diameter) of trees supplied.

YOUR PLANTS AND LAWNS

Respond Best if Fertilized

When small quantities of fertilizers or insecticides are wanted by parcel post, please add postage as follows: 20c for 10 lbs., or less. Larger quantities will be sent by express or freight, collect.

Adco. Garden rubbish such as leaves, cuttings, straw, etc., is turned into a true manure (best of all fertilizers) when mixed with Adco. 25 lbs., Adco makes $\frac{3}{4}$ ton valuable manure, 5 lbs., \$1.10; 20 lbs., \$2.35.

Agrico, Lawn & Garden Fertilizer. Formula that makes grass develop stronger and deeper roots to better compete with Crab Grass and other weeds, which are surface rooting. Gives good color and vigor to the lawn. Apply 1 lb. to 40 sq. ft., and water heavily. 25 lbs., \$1.60; 50 lbs., \$2.65; 100 lbs., \$4.75.

Agrivita. Agrivita is an all-organic broiler manure—no added inert filler is used in processing. This material is processed for sterilization and for freedom from weeds. Spade 5 lbs. of Agrivita into soil for each 5 to 10 sq. feet. Side dressing during growing season will give excellent results in both plant growth and quality vegetables. 5 lb. Bag, 50c; 50 lb. Bag, \$2.50.

Aluminum Sulphate. Useful in creating acid soil conditions. Broadcast $\frac{1}{2}$ to 1 lb. to each square yard of surface. 5 lbs., 75c; 10 lbs., \$1.40.

Bone Meal. All purpose balanced fertilizer, 5 lbs., 75c; 100 lbs., \$9.00.

Bovung. Natural cow manure, thoroughly dehydrated and pulverized. Free of weed seeds. One pound is sufficient for 25 sq. ft. of area. 25 lbs., \$1.50; 50 lbs., \$2.50; 100 lbs., \$4.50.

Leaf Mold. Nature's plant food. Mix with soil in which Rhododendrons and Azaleas are to be planted. 3 parts Leaf Mold to 1 part soil. 50 lbs., \$2.00; 100 lbs., \$2.50; 1 ton (2000 lbs.), \$30.00.

Lime, Pulverized. For lawn and field use where the ground has become sour. Two pound is sufficient for 25 sq. ft. of surface. 50 lbs., \$1.35; 100 lbs., \$1.85; 500 lbs., \$8.50.

Manure—Rotted— $1\frac{1}{2}$ Bushel Bag, \$2.75.

Peat Moss. (Ground) Applied as mulch, conserves moisture, keeps down weeds, melloes and acidifies the soil and beautifies at same time. Water well before and immediately after applying as a mulch. 1 bale covers 125 sq. ft. to depth of 2 inches. 2 bu. Bag, \$1.00; Large Bales, \$5.00; Senior Bales, \$3.25.

Michigan Peat. Organic soil conditioner, or for a garden top dressing. 10 lbs., 50c, 25 lbs., \$1.25; 100 lbs., \$3.50.

Rhododendron Food. (Agrico) Both acidifies the soil and provides plant food especially needed by Rhododendrons, Azaleas and other broad-leaved evergreens. Broadcast 1 lb. to each square yard two or three times a year. 10 lbs., \$1.00; 25 lbs., \$2.00.

Soil, Potting. Mixture of soil, sand and fertilizer. Ideal for potting purposes, or any place where especially good soil is needed. 1 bu. \$1.25; 2 bu., \$1.75; 3 bu., \$3.00; 5 bu., \$4.00; 1 ton, \$6.50.

Tobacco Stems, Cut. A combined fertilizer, mulch and insecticide for lawns and shrubbery, trees and evergreens. Unlike stable manure does not introduce weed seeds. 100 lbs. will cover 500 sq. ft. thickly. \$2.50 per 100 lbs; 500 lbs., \$6.75; \$20.00 per ton.

Tree Food (Barr's). Trees will make quick response to this special food and its action will also be long lasting. Especially valuable for Oak trees where leaves show tendency to turn yellow. Use 4 lbs. to each 1 in. caliper early spring, and again in July. Do not use as top dressing but insert in holes in ground as far as branches extend above. 10 lbs., \$1.80; 50 lbs., \$4.10; 100 lbs., \$6.15.

Vigoro. Special prepared plant food. Vigoro supplies all 11 of the vital food elements all growing plants need from the soil. It is clean, odorless, sanitary and easy to apply. Use 1 lb. to 20-25 sq. ft. area. 25 lbs., \$1.60; 50 lbs., \$2.50; 100 lbs., \$4.25.
